

# Federico Nicolás Reinoso

Date of birth: 19/11/1996 | Nationality: Argentinian, Italian | Mobile phone: +34 637953145 | Email address: [federeinoso01@gmail.com](mailto:federeinoso01@gmail.com) | Website: <https://federeinoso.vercel.app> | LinkedIn: [federeinoso](#) | Home address: 29680, Estepona (Spain)

## ★ Skills

Frontend Core:

- HTML5
- CSS
- JavaScript (ES6+)
- React.js
- Next.js

State & Data:

- REST API
- CRUD Operations

Styling & UI:

- Figma (UI to Code)
- Bootstrap
- Tailwind CSS

Responsive design

Tools & Workflow:

- Git
- Github
- Postman
- SCRUM

## 🗣️ Language Skills

• **Spanish:** Mother tongue

• **English**

- Listening: C1
- Reading: C1
- Spoken production: C1
- Spoken interaction: C1
- Writing: C1

## 👤 About myself

Frontend Developer building responsive web applications using React.js and modern JavaScript. Dual Argentine–Italian citizenship with legal right to work in the EU. Currently based in Spain and seeking frontend opportunities across Europe.

## 🎓 Education & Training

### Bachelor's Degree in Social Sciences and Communication

03/03/2008 – 01/12/2014

Instituto San Juan Bautista | San Nicolás de los Arroyos, Argentina

Level in EQF: 4

## 💼 Work experience

### Software developer

17/10/2022 – 25/03/2024

Rubik Solutions | San Nicolas de los Arroyos, Argentina

- Developed and maintained a carrier management system for industrial plant access control, implementing driver and vehicle documentation workflows with React.js, creating reusable UI components and integrating RESTful APIs.
- Built a customizable order management platform for a wholesale apparel company.
- Collaborated with cross-functional teams using SCRUM methodology to deliver features on schedule.
- Translated Figma designs into pixel-perfect, responsive interfaces.

### Software developer

02/08/2021 – 11/09/2022

LogiPorts SRL | Rosario, Argentina

- Engineered an operational management system for port logistics services, focusing on real-time data visualization and user experience
- Implemented driver documentation tracking and vehicle monitoring dashboards with live data updates.
- Designed and developed intuitive user interfaces for both internal staff and external clients.
- Optimized application performance for handling real-time logistics data streams.

## ⚡ Professional Development

### freeCodeCamp

Responsive Web Design, JavaScript Algorithms & Data Structures, Frontend Development Libraries

## **Alure + Oracle**

Logic Programming, Frontend Development, Java, Entrepreneurship

## **The Joy of React**

Advanced hooks patterns, custom hooks, React Context, accessibility, Next.js with Server Components, and production-ready component design
